It is indisputable that the islands for all the people and more territory is imperative. One of Terauchi's pet projects, it is understood, is to drive and replace them with Japanese. He would cause the Koreans to emigrate nize the territory.

When Korea was annexed by Japan shortly after the Manchurian war, the population was about 10,000,000. Count Terauchi, not by cruelty and persecution but by the enactment of despotic laws, has so annoyed the Ko-

reans that many of them have moved. Count Terauchi is 60 years old. He studied military science in France. It was in connection with the annexation of Korea for which he was largely responsible, that he received the title of Count.

Distressing Conditions Brought Light in New York.

New York, Dec. 7 .- Stirred as never before by the astounding revelations over the manner in which babies hardly out of arms, are forced to work, in the tenements of this and other cities, of the state, members of the state factory investigation commission were today considering remedial legislation. It was admittedly a difficult task. Women workers who had told of the evil, frankly declared that in many instances the children had to work or the entire family would face starvation. With the price Will Take Fifteen Hours to Clear of the necessities of life higher than ever before in the history of the United States, and with the earnings of the tenement dwellers so low that even with entire families working the average was less than \$7.00 a weak, the committee agreed that the incoming legislature would have to eral days the German press today would no timpose even greater hard- Austrian-Servian situation.
